EXPERIENCE

Analyst | Deloitte USI *(Oct 2024 - present)*

- Building an AI-powered tool for a manufacturing client that converts raw customer requirements into structured, parameterized specifications **and auto-generates manufacturing-ready 3D models** via an integrated CAD engine - streamlining the requirements-to-design pipeline.
- Led a 3-person team in an internal hackathon to design and build an **AI agent for intelligent approval** workflows, owning end-to-end delivery from solution architecture through live demo.
- Engineered **process blueprints and automation frameworks** for an aerospace client's enterprise PLM systems, streamlining change management and BOM workflows to improve operational efficiency.

Business Analyst Intern | STEMpedia *(Jan 2024 – June 2024)*

- Designed and deployed Python web scraping solutions to automate lead generation and enrich CRM data, integrated with sales systems via REST APIs.
- Built Python-based integrations between CRM and accounting platforms to automate the end-to-end sales-to-invoicing workflow.

Data Engineering Intern | Solwin Infotech, Surat *(June 2022 – July 2022)*

- Developed a **Data Scraper** that extracts data about posts of job seekers from LinkedIn using Python Selenium, to improve the hiring process efficiency by about 80%.

EDUCATION

Sardar Vallabhbhai National Institute of Technology, Surat *(2020-2024)*
B.Tech – Mechanical Engineering (Grade – 8.29)

Indian Institute of Technology Madras *(2021-2024)*
Diploma – Data Science and Applications (Grade – 7.32)

Class XII *(2019-2020)*
Gujarat Board (77.7%)

Class X *(2017-2018)*
Gujarat Board (88.8%)

TECHNICAL SKILLS

Languages	Python, Java, SQL, HTML, CSS
Data Engineering & Automation	Web Scraping (BeautifulSoup, Selenium), REST APIs, ETL Pipelines, Pandas, NumPy
Machine Learning & Analytics	scikit-learn, Machine Learning, Data Visualization (Matplotlib, Power BI), MS Excel
Web Development	Flask, HTML/CSS, REST API Development
Tools & Platforms	Git, GitHub, Power BI, Jupyter, LLMs

PROJECTS

Business Data Management | Business Analytics, MS Excel

- Analyzed historical transactional data for a retail business to uncover sales trends and inventory inefficiencies, delivering actionable insights to drive revenue growth.

Influencer Engagement & Sponsorship Co-ordination Platform | Web Development – Flask, HTML, CSS

- Developed a full-stack web app connecting influencers and sponsors, implementing backend APIs, database design, authentication, and responsive UI.

Forecasting Crime Categories | Machine Learning – scikit-learn

- Built a multi-class classification model on Kaggle to predict crime categories, covering end-to-end ML workflow from preprocessing and feature engineering to model tuning and evaluation.
